From Les’s Chair....

As I sit here writing this month’s article, some famous words come to mind. The words of President John F. Kennedy, “ask not what your country can do for you, but what you can do for your country”. This is sort of the case with GWRRA; ask not what GWRRA can do for you, but what can you do for GWRRA. Some of you are probably wondering where I am going with this. GWRRA is OUR association, we all know how it was started, but without the members it would not live on. I believe the membership is the life blood that feeds the heart. GWRRA is a very large heart and that is why it is important that ALL members contribute their ideas, time, desires, and yes – dreams. There are many jobs in GWRRA and I want to encourage each and every member to get involved. Please do not be afraid to try doing something you have never before attempted. Many members just cannot see themselves as a presenter, but some of our very best presenters did not think they could do it in the beginning. I want to challenge each and every one of you to give it a try. Try taking on a job in GWRRA, if you have noticed I am not speaking just chapter level here. Do not be afraid to speak up and ask; I do not know of anyone being turned down if they wanted to be in a more active role. As a member when you look around, are you seeing the same old faces in the leadership roles? The day will come when these faces will need replaced. I know many of these leaders would love to take on an assistant to “show them the ropes”. Remember, you get out of GWRRA what you put into it. YOU may be that drop of blood that inspires a fantastic idea, or a change that is needed but has been overlooked. It is all about fun and participation; they go hand in hand. Looking forward to seeing you at Spring Fling March 5th at Lake of the Ozarks and in Branson, June 2-4, 2016. Come and join the FUN!

Les and Sara Gibson

If you haven't had a chance to register, here is the link, http://wing-ding.org/attend.html
Have ya been waiting and counting the days until spring? Yearning to roll that bike or trike out of the garage and hit the road again? Welcome to the club! If you’re anything like me the wait for spring has been a long one….too long. Now that it’s s-l-o-w-l-y warming up again for the year you’re just itching to yank off the bike cover, fill up the tank with some fresh gas, throw on some extra warm clothes and go.........right? Think a minute. Are you really ready to roll because the thermometer says it’s finally warmer? Don’t we first need to reverse all of those steps we took to winterize our bikes? Now instead of "winterizing", we need to "springerize" our bikes.

Here's a list of things you will need to check before your first ride of the season:
1) Find your storage checklist. You know? The one you should have made when you were putting your bike away for the winter. Reverse all of your steps. If you did not make a checklist, then keep reading and follow the below steps.

2) Uncover your bike. Wipe down your cover, fold it up and store it in good shape until you'll need it again next year.

3) Remove the rags in your exhaust pipes. Wipe the Armor-All COMPLETELY off of the seats and handlebar grips. Remove any traces of WD-40 from your rims and exposed metal parts. If you oil-fogged the cylinders, wipe off any excess oil from around the plugs, tighten them down and reconnect the plug wires.

4) Roll the bike outside and wash it well with warm water and soap. As you dry and detail it look for any rust or corrosion spots.

5) If you removed the battery a few months ago for winter storage, check the charge on it and if all is well, re-install it. If the battery remained in the bike over winter (so you could start it periodically) and you're sure it is already up to charge, great. But still just to be sure, check the terminals for corrosion and connection integrity.

6) Now do a complete T-CLOCS check on your bike. Don't skip or shortcut anything on this inspection. Remember your bike has set for maybe 3 months now. Did a mouse get to the bike? Maybe a wire was chewed? Did a tire crack in the cold weather? Did the cold weather extremes cause something to split or warp? Start at the top of the T-CLOCS and work down hitting EVERY point.

7) Let's look at our tires and wheels. How do the tires look for wear? Cracking? Are they up to pressure? Probably not huh, as cold weather means lower tire pressures. How do the brake pads look? Is there noticeable movement in the wheel bearings if you grab ahold of the tire and flex it back and forth? Any seals leaking?
8) Now let's a look over the controls such as the clutch lever, throttle, brakes, etc. Make sure they are in working order and do not stick / jam.

9) Inspect your electronics (lights, odometer, etc.). Turn on the bike's ignition. Do you have ALL lights and signals displaying? Check the mirrors for any damage.

10) Check the condition and level of fluids (gear oil, brake fluid, coolant, etc.). If you're old school and winterized your bike with cheap "storage oil" in the crankcase, drain it and put in the brand of oil and filter you intend to run in the bike. While you were under there, did you see any oil or fluid leaks? Remember to check the level of coolant in the anti-freeze overflow reserve tank.

11) Now examine your chain and sprocket (or belt) for wear, if applicable.

12) Look over your chassis and the overall body of your bike. Any stress cracks? What is the condition of your shocks? Are all the nuts and bolts tight?

13) Finally, two-wheel riders, check the side stand to see if it is still in good condition.

14) Return any and all paper work into the bike you may have removed for storage. Look over your insurance card. Is it up to date and current? Did you use the last few months to do some comparison shopping for the best rates on insurance? (You should have.)

15) And now---will she turn over? Time to finally twist that key!! Watch your tachometer as the motor warms up. Does it idle smoothly? Roll the throttle grip to see if it operates smoothly. (Some smoke is probably normal---for a bit---as gas treatment will cause that if you added too much when storing.) Yee-ha!! Just as you hoped, everything checks out. N-O-W, you're good to go! Put on some warm clothes and take her out for a spin. Remember though.....you might be a little rusty if you haven't driven a motorcycle all winter. For a few miles ride at slower speeds until you get the feel of the bike and the road again. Watch for wet pavement, and be especially watchful of non-motorcycle drivers. They haven't had you on their minds for two or three months now, and most automobile and truck drivers may not expect you to be back on the roads yet, so they will NOT be looking out for you. That means you have to be especially watchful...of them. And finally, don't forget to call the rest of us in "O" to see if we'd like to go riding with you.

“RIDE YOUR OWN RIDE....AND BE SAFE!!”
ATTENTION ALL TREASURERS FOR CHAPTERS OR DISTRICTS:

There is a new Financial Sheet available through GWRRA officer resources that you MUST use for 2016. Please go to www.gwrra.org and download the new financial report. It has a check register with the program and will automatically put your information on the financial sheet so it will be ready for the year end. There are new categories for both income and expenses and a financial breakdown sheet for your use.

Anita Alkrie has also written a Financial Breakdown Explanation letter. PLEASE download all of these documents and start using them immediately.

We hope that you are planning on attending Missouri Spring Fling this weekend and cheering on your chapter couple or individual of the year. Show them how proud of them by being the biggest cheerers in the room.'

Join in the fun!!! Participate, Participate, Participate

Warm Hugs
Glenn & Carol White

Friends for Fun, Safety and Knowledge
These classes have been provided to us as being available this year. We hope we can see you at one of these.........

John & Nancy Hofmann
Missouri District Trainers
Wow, our first 30 days as Region E Directors have been full of fun and excitement. Nicki and I are on the road quite a bit planning the 2016 Region E Rally. We want you to know that we’ve been listening to all of you and it seemed that cost was becoming a big factor in your decision to attend any rally. You were most concerned that the cost of traveling and the cost of host hotels have continued to grow higher each year. So, let me tell you what we’ve accomplished.

First, we located a city that was as close to the center of our Region as we could find which had facilities to meet our needs. Second, we searched possible locations in Cedar Rapids, Iowa, and we stopped at McGrath Powersports and explained that we would have to put this rally together in a short period of time and we must keep our cost down. McGrath Powersports made us an offer we could not refuse and they are working with us all the way to make this rally special. We will not have a host hotel. You may pick any hotel at any price within the Cedar Rapids community, and there are many to choose from. Some are within walking distance and others are just a few miles away. This may be a good time to explore your Member Benefits on the GWRRA website. I’ve heard of rates as low as $72.00 per night. For those that like to camp I suggest a nice campground in Marion, so check out this website:

http://www.mycountyparks.com/County/Linn/Park/Squaw-Creek-Park.aspx

We will have all of the usual activities you have enjoyed over the years, but our main purpose is to select a 2016 Region E Couple of the Year and an Individual of the Year. Please come and support your District COY and IOY. They will greatly appreciate that enthusiasm you add. The 2016 Region E Rally will be held at McGrath Powersports in Cedar Rapids, Iowa, on June 24th and 25th. The rally flyer and registration form are out and circulating throughout the Region. Watch for them on our Region E website, Region E newsletters, and your District newsletters. All of our districts are planning on having very special rallies this summer so we will see you out there on the road to the next great rally.

Bob & Nicki Fowkes
Region E Directors.
National News

Social Media, Your best friend or worst enemy?

WOW! What a great way to stay in touch with your friends and Chapter Members or any group. It can help you with so many communication challenges in GWRRA. You can even set up your own Facebook Page for your Chapter/District/Region. What a great tool for effective communications with our Members! This type of instant communication used to be something we would dream about.

Wake up folks!!! This dream can easily turn into a nightmare if we are not careful when using it. Don’t forget, “whatever you say may be held against you!” It lasts forever, you can’t take it back and the opportunity for your printed words, without facial expression, voice inflections or body language can easily be misinterpreted or misunderstood. Instead of someone laughing at the remark you stated in writing, the opposite happened. Now, their feelings are hurt and/or they are mad at you. This very rapid and far reaching form of communication can also broadcast whatever you wrote about when you offered your opinion about a particular presidential candidate or anything political in nature. The same goes for any other subject that will affect someone’s opinion, including religion. It is almost impossible not to offend someone who reads that post from you.

At this point, I have a sincere concern. Whenever you post a disparaging remark about anyone on your Facebook page YOUR name always precedes it – in BOLD type. Lots of the readers of that post know YOU! How does the individual reader differentiate this “personal opinion” you have just voiced as representing only your opinion and not the Chapter, District or Region that you represent in GWRRA. Worse, does the reader think that opinion represents who or what we stand for in GWRRA?

WOW! Instead of “making a friend” on Facebook we may have just lost one or more friends. How many times have we found out that the basis of a misunderstanding amongst members of a Chapter turned out to be something that someone posted on Facebook or other “Social Media?” As Leaders in GWRRA please help all of our Members understand that Facebook can help make our experience in GWRRA even better when we can share all of the great rides and adventures that our 2, 3 or 4 wheels bring us plus the great pictures and memories that go along with them. This is all possible if we are careful of the letters that our fingers touch on our keyboards as we enter the World-Wide Web!

Thank you

Ray and Sandi Garris
Honda Of The Ozarks in Springfield isn’t just any motorcycle dealership; they’re a Honda Powerhouse, and the only Powerhouse dealer in Missouri. By having Honda exclusively, it allows Honda Of The Ozarks to give the customer the widest selection of models and colors. With hundreds of new Hondas in stock, it’s guaranteed you’ll find exactly the Honda you’ve been looking for. All the latest Gold Wing models are in stock and ready to go. Even the hard to find models and colors. Honda Of The Ozarks promises a hassle-free sales experience with their Price Matching Guarantee, and Limited Life-Time Warranty on a new Goldwing.

Perry, our Parts and Accessories Manager, has stocked Honda Of The Ozarks with thousands of Gold Wing accessories; tires, helmets, apparel, C.B.s, intercom systems and just about anything you can imagine for a Honda Gold Wing. Great selection with Honda Of The Ozarks’ Price Match Guarantee that’ll meet or beat anyone’s price on parts, accessories or apparel. Speaking of guarantees, Honda Of The Ozarks guarantees superior service for your Honda Gold Wing.

For over twenty years, Honda Of The Ozarks’ Service Manager, TC, has pretty much done and seen it all; from complete Gold Wing cases and frame up rebuilds, to achieving all the factory certifications levels there are to certify. From regular maintenance to trike conversions, TC and his techs are there to service every Goldwing need.

So whatever you need for a Honda Gold Wing, check with Honda Of The Ozarks, your Missouri Gold Wing Headquarters. Stop in and see for yourself why Honda Of The Ozarks is one of the top Honda dealers in the world.
